

One

This is
our tin of
Andrews. Mother

says it keeps us fit through
the winter so coughs and colds
aren't likely to keep us
away from school and work.

Two

We love to
take Andrews!

It's such fun! We just
stir a teaspoonful into a
glass of water and oh,
how it bubbles and fizzes!

Three

Then we drink
it down all bub-

bling and sparkling.

It tastes so nice too.

These cold winter
mornings we usually
have our Andrews in
water with the chill off.

ANDREWS

*for us
this winter!*

A family that is not 100% fit becomes
easy prey for cough, cold and 'flu
germs. Sparkling, effervescent
Andrew's Liver Salt maintains fitness,
benefits the entire system. First it
freshens the mouth and helps to clean
the tongue, then settles the stomach
and tones up the liver. Finally
Andrews gently clears the sys-
tem. Drink a morning glass
of healthful Andrews—**THE
TONIC LAXATIVE**—

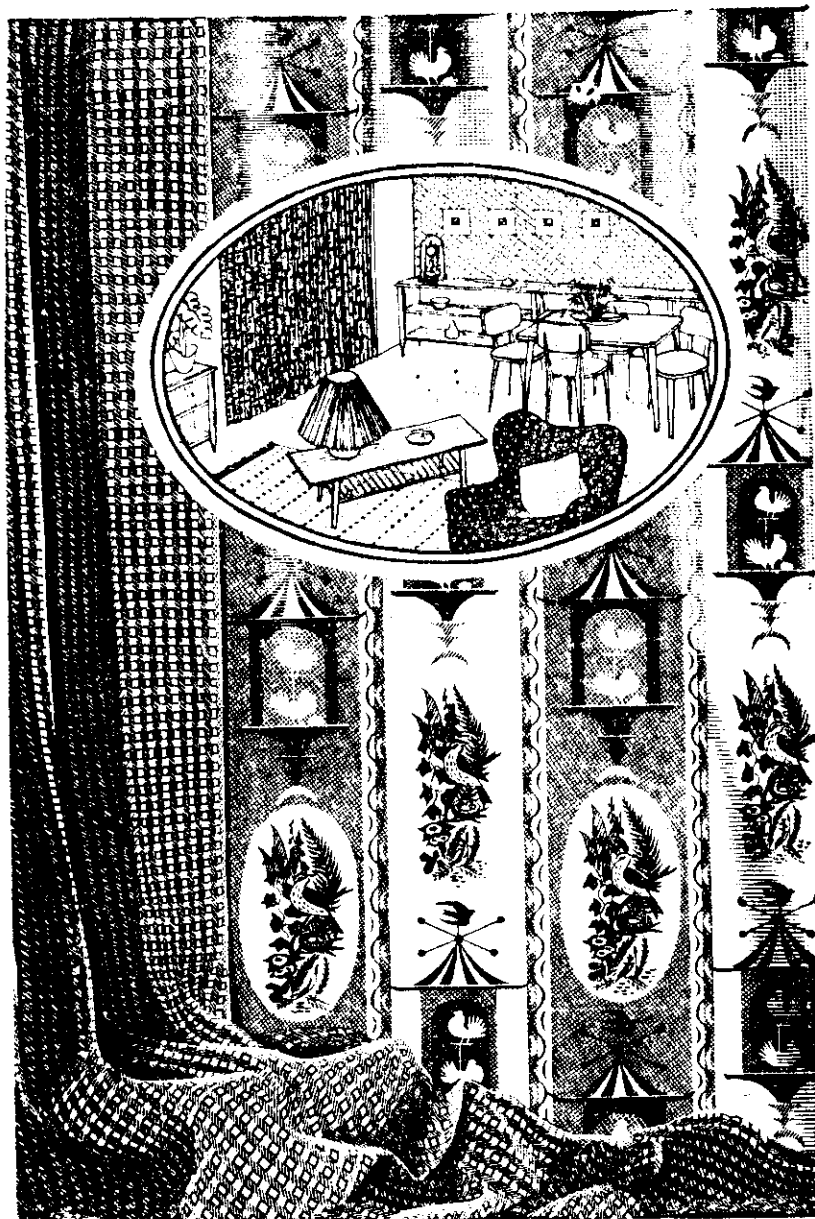

Still the best value —
1 lb tin 2/6. 1/2 lb family size 4/1

for DAILY GOOD HEALTH!

Scott and Turner Ltd., 5 Manuka St., Wellington.

'Contemporary' or 'modern'?

There are two schools of thought.
Some say 'modern'; others 'contem-
porary'.

Well, we can leave those differ-
ences to architects, critics and the
lexicographers. Our contribution to
the discussion is a wide range of
Sundour Fabrics—for example like
the texture and the print shown here
—and that seems to satisfy both
schools of thought.

Whether you're thinking of cur-
tains or covers... for large rooms or

small... you can be certain of find-
ing the fabric of your dreams. There's
a whole world to choose from—bold
prints or dainty chintzes, textures
or damasks, velvets or chenilles,
dainty marquises or gay sprig
muslins. And at prices to suit every
purse.

They'll keep their first-day fresh-
ness, too—for they are guaranteed
against fading. Every one of them.
These lovely fabrics are at good
stores everywhere.

SUNDOUR

fine furnishing fabrics

All Sundour fabrics are guaranteed against fading
— most of them for the whole of their life.
