Trade names appearing in Commercial Division programmes are published by arrangement.

A contralto soloist in a Kansas City church at the age of 13, Gladys Swarthout began her concert career while still in her teens. A wealthy family, impressed by her promise, financed her career and several years of intensive study preceded her operatic debut in "Tosca" in 1925. In 1929 she joined the "Met." Some of her songs are featured from 1ZB today at 4.15.

Fred Astaire has been in the public eye for many years as a stage and film star but his feet seem to have the secret of eternal youth. He did, however, refuse a role last year because he maintained the character was too young for him. He'll be heard in some old favourites from 2ZB at 9.30 this evening.

At 10.15 a.m. 2ZA will broadcast the final episode of the "Man from Maloba," and "The Thoroughbred" also has its final broadcast today at 8.15 p.m.

Can you detect the difference?

Differences in fingerprints are almost imperceptible to the untrained eye. But to the expert, unique and highly individualistic features are easily detected.

Talcum powders, too, may look alike . . . and yet be vastly different. Take Johnson's Baby Powder, for example. It's texture is unlike that of any other baby powder because it is made of Italian talc exclusively.

The distinctive platelet formation of this talc . . . in contrast to the granular texture of other talcums . . . is the reason for the unique lubricity of Johnson's Baby Powder.

And in a powder especially formulated for infant skin care, lubricity is of foremost importance.

HAPPY BABIES MADE OUR REPUTATION

Johnson's Baby Powder
