

Perfect Shaving in every man's grasp with the *Sensational* **NEW** *Remington*

**FASTER, CLOSER,
SMOOTHER 60**
shaving than ever before!

After using this new Remington Palm Model for a fortnight, ten independent testers reported absolute satisfaction in every way. That was only to be expected, but the surprising thing was that all ten had cut their shaving time to 60 seconds or less — that's why the new model was called the Remington 60.

That was really fast shaving! But you may not want to rush the pleasure of your Remington shave into 60 seconds. You may not even be able to. But your new Model 60 will give you **your** fastest possible shave; as well as the closest and smoothest.

The name Remington has always meant the best in electric shavers; and Remington have made certain of keeping that reputation by constant research and improvement. All the advanced ideas that make for better and still better shaving are combined in this record-breaking new Model 60.

Study these outstanding new features—

NEW, COMPACT AND PRACTICAL DESIGN, giving a light and comfortable fit-the-hand grip and perfect control.

NEW EXTRA-LONG SHAVING HEADS, whose 132 diamond-honed cutting edges give the astonishing total of 16 million cutting movements a minute.

NEW POWERFUL ROTARY MOTOR, compact and precision-built, easily driving the now longer shaving heads.

NEW TYPE OF STARTING WHEEL, which starts the motor with a flick of the finger, but stops still while the shaver is running.

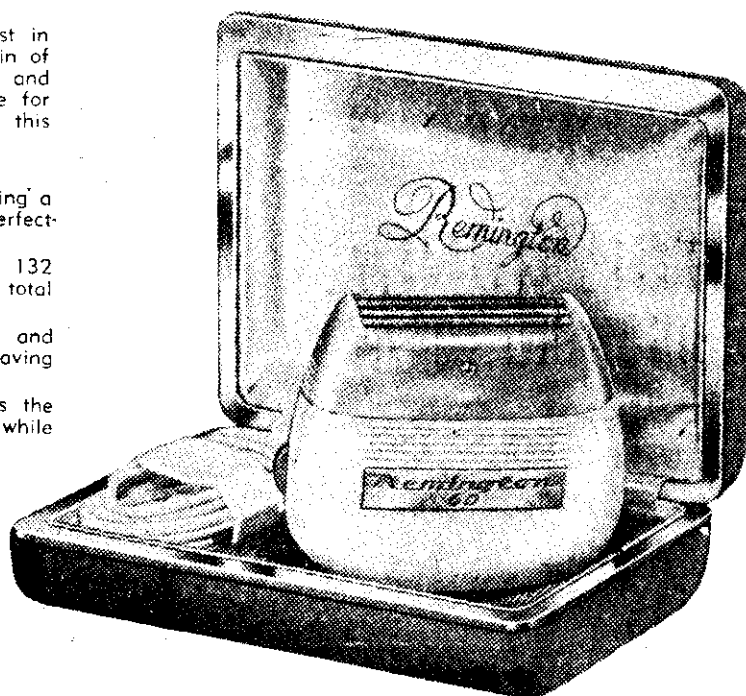

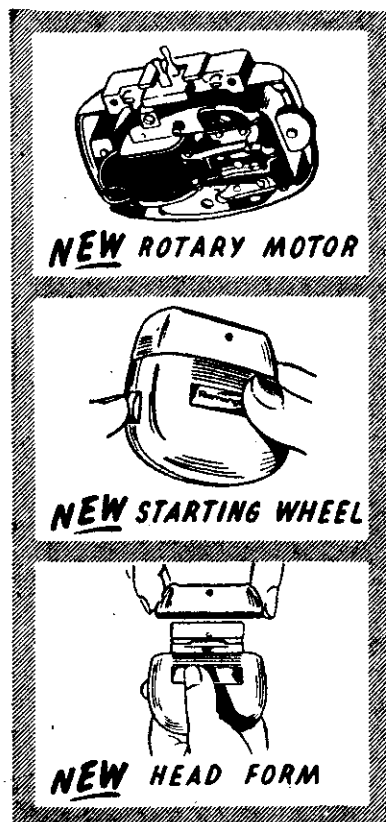

NEW DESIGN OF PLASTIC HEAD-CAP with special hair pockets, made to snap off without trouble.

NEW INSTANTLY - REMOVABLE HEAD-FASTENING, without bolts or screws, makes cleaning easy.

This NEW Remington 60 brings you up-to-the-minute Shaving!
