

NOW . . . a special greaseless treatment for 4 common "Young Skin" problems

Are these "young skin" problems spoiling your looks?
Skin oily — yet flaky?
Pores beginning to "spread"?
Blackheads dotting your complexion?

Such an unkind but common trick of nature! Suddenly, unpleasant things may begin happening to your face. The oil glands start

overworking. At the same time, your skin grows sluggish — unable to throw off the everyday accumulation of dead skin flakes. This mixture of oil and dry skin cells begins to build a "choking" layer over the pore openings. Now — you're threatened by another problem — enlarged pores and even blackheads. Your skin needs help quickly.

Right away...this remarkable facial clears off...brightens...softens "young skin"

A remarkable corrective has been developed by Pond's for these 4 "young skin" problems. Just cover face, except eyes, with a snowy-white, greaseless mask of Pond's Vanishing Cream. The Cream's "keratolytic" action loosens and dissolves off stubborn, dead skin cells. Frees the tiny skin glands to function normally. Now — after 60 seconds — tissue off clean. See how tingling-fresh and completely un-greasy your skin looks!

Get a jar or tube of Pond's Vanishing Cream today — give yourself

your first "young skin" treatment tonight.

"Young Skin" doesn't like heavy make-up!

Flatter your skin, keep it fresh looking with a sheer film of Pond's Vanishing Cream for powder base. It's greaseless!

15. Slates (anag.).
16. This visit is not necessarily made by aeroplane.
17. A more impetuous slice?
19. Even a permanent one needs re-newing.
20. Bargain.
21. See 11 across.

No. 725 (Constructed by R.W.H.)

L. THOMSEN (right), Director of the Carter Observatory, Wellington, discusses with Peter Latham, of 2ZB's "Sunday Supplement" reporting staff, the 9-inch "Captain Cook's telescope." Whether the great navigator actually used it himself is not established, but it was certainly used by Banks and Solander to observe the Transit of Venus on June 3, 1769

N.Z. LISTENER, DECEMBER 10, 1954.
