TRACKING TROUBLE?

The new **RONETTE CRYSTAL** is the answer to your tracking problem.

We have had considerable enquiries from record buyers who find that modern L.P. recordings "stick in the groove" or "jump across record surfaces."

We have just received a shipment of new Collaro Pickups with turnover Ronette heads. Priced at £4/10/6, these will replace almost any other pickup and "will track any record of the present and of the foreseeable future" (see Gramophone review by P. Wilson, M.A.).

If, on the other hand, you have not yet invested in the Long Playing equipment, we suggest that you will be perfectly satisfied with the new Collaro motor and pickup, incorporating the Ronette Crystal. This will convert your present standard equipment into a Long Playing machine, which will also play 78's and 45's. These motors are remarkably free from rumble or hum, and are comparable with the much more expensive equipment.

Send your enquiries to the nearest Begg's Branch. Our Radio Service Department will be very happy to advise you on change over to Long Playing.

Free Lists of Long Playing records are available. Send us your name and address for inclusion in our mailing list.
