NOW...

it's an all-"PERSPEX"

Kitchen and bathroom need colour, and here's a low-cost, long-lasting way to carry colour right through the house in kitchen and bathroom fittings. Baths, sinks, basins, lavatory fittings, shower floors . . . all in durable, colourful "Perspex." Plix "Perspex" fittings stand up to hot water and are unaffected by a wide range of dilute acids and alkalis. In building or planning new homes or modernising old ones, add colour harmony in a safe inexpensive hygienic form for bathrooms and kitchens.

PLIX PRODUCTS

"the colour goes right through"

FOR THE KITCHEN

Plix Sink Benches

A Plix sink has everything wanted to make washing-up easier. In a lovely pastel tone of your choice, the Plix sink has no rough edges or dirt-collecting corners. Hard wearing, yet the surface is the finest example of easily-cleaned material in existence.

FOR THE BATHROOM

Plix Baths, Shower Floors, Wash Handbasins, Lavatory Cisterns and Seats

Make your bathroom always attractive. Each of these Plix appliances is superbly designed and easily installed by standard plumbing methods, and the wide choice of attractive colours will bring beauty and brightness to your bathroom.

*All Plix Products are made from "Perspex," the colourful, versatile plastic manufactured in England by Imperial Chemical Industries.

Plix Products are sold by hardware and plumbing merchants everywhere, and manufactured by
