WAKE UP YOUR LIVER BILE

Without Colamel — And You'll Jump out of Bed in the Morning Full of Vim.

The liver should pour out two pints of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Wind bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, tired and weary and the world looks blue.

Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes those good old Carter's Little Liver Pills to get those two pints of bile flowing freely and make you feel "up and up." Harmless, gentle yet amazing in making bile flow freely.

Ask for CARTER'S Little Liver Pills by name. Stubbornly refuse anything else.

SEEKERS

THE Chinese student, we are told, would spend ten years of contemplation, watching growth—the natural form evolve its inner line—before he took a brush into his hand, before he'd earned the right to mouth questions or formulate opinion.

He spoke, of course, a language of ideas—each word he wrote acted itself entire—no clotted adjectives to stand between the vision and the fact, or fill his ears with dissipated whispering. No more could then be said but what the eye had seen.

The calligraphic man was not required to prove some pre-existent talent by preliminary exams or signing forms. Mechanics could be taught; but nothing fired vision, except long practice of the eye following Nature's fruitifying signs.

Think on this then who, early, seek to prove luck or inheritance as cause for light, or laud enrolment in the proper schools. Here, mere mechanics substitute for love; person or pedantry stand for delight, and truth's made property of licensed fools.
