**PROVED!**

*Through the length and breadth of New Zealand!*

Thousands upon thousands of New Zealand motorists are changing to the revolutionary new BP Visco-Static Motor Oil, as the properties of this truly remarkable lubricant become better known. Visco-Static is the first and only four-grade oil... unlike ordinary graded oils it provides optimum lubrication over the entire engine temperature range! The result... **REDUCES ENGINE WEAR 80%**! This is fact! Visco-Static circulates as freely, lubricates as perfectly as SAE 10 at cold starting temperatures, yet still maintains a 100% efficient protective film equivalent to SAE 40 at high running speeds. No oil has ever been able to do this before!

Further... BP Visco-Static **SAVES PETROL UP TO 18%** because its outstanding ability to circulate freely at low engine temperatures means that oil drag is practically non-existent right from the start, and a substantial power and therefore petrol saving is the result.

**VISCO-STATIC**  
MOTOR OIL
