'Terylene'

\* 'Terylene', a British invention, is a synthetic fibre, versatile, resilient, amazingly strong, yet with a warm friendly feel and a graceful drape. In two forms, it is made into both "woolly" and "silky" fabrics. There are 'Terylene' skirts and blouses, dresses and lingerie.

The fibre of modern life

\* 'Terylene' for the easier life! Washing? Easy. Drying? Rapid. Ironing? About once in ten washings. Packing? Child's play: 'Terylene' clothes keep their freshness, pleats stay crisp after washing, creases shake out like new.
