FAMOUS JURY TRIALS

From the court files of the world come these great stories of FAMOUS JURY TRIALS, thrilling successors to Canterbury's "Famous Trials."

The German court-martial of heroic Nurse Edith Cavell . . . the treason trial of Aaron Burr, the United States Vice-President who killed a former President in a duel—these and many other trials will enthrall every listener.

Dramatised in fictionalised form, the cases in FAMOUS JURY TRIALS are taken from actual court records. Spanning the centuries, they tell the stories of the rich and poor, famous and infamous, guilty and innocent, who stood before the Bar of Justice.
