DAMASK

Irish Linen damask looks so luxurious, but it's the most practical, well-behaved, easily laundered fabric in the world. Irish Linen damask is unique and the more often it is used, the lovelier it becomes. Its satin-like sheen never loses its beautiful lustre, its textured loveliness stands the test of time. Give your sterling silver and wedding present china the background they deserve with a cloth of pure Irish Linen. And don't forget that Irish Linen sheets, pillow cases, face, hand and tea towels are long-term investments in durable beauty and good taste.
