

You haven't an "earthly" against such a solid fact as a Railway Engine—it has the right of way—it cannot stop quickly—and it has **the WEIGHT!** Look out at railway crossings—don't be tempted to give it a go—64 people tried that unsuccessfully last year—don't you be the next one to fail.

You are required by law to slow down to 15 m.p.h. when within 100 yards of a railway crossing.

break your match
Keep OUR forests whole

It's only a tiny flicker — but the flame of a match can start a forest fire. Please take extra care this summer with matches, cigarettes and campfires. Do **your** part to preserve our national heritage of forest and bush, of precious soil, water and wildlife — Keep New Zealand Green.

Prevent Forest Fires

Farmers—Motorists—Trampers—Stop Fires early! Please report any unattended fire immediately to the nearest telephone exchange who will send a priority toll call to the rural fire officer.
