

A clean engine has POWER!

There's a thrilling difference between the free-surfing power of a clean engine and the one that's labouring with friction causing gum and carbon.

That's the reason why more and more smart motorists use clean burning Europa. It's the perfectly refined spirit; volatile, powerful. Because it burns without trace it's the one petrol that will help your engine stay clean longer. Keep your old car at its best; keep your new car new...

... use clean burning

Refined to a new molecular formula Europa is volatile, powerful and clean burning.
