

A clean engine *RESPONDS!*

A clean engine performs with plenty of pep . . . responds instantly to a touch on the accelerator. A hill and you're up and over . . . a car to pass and zoom! you're in front. Use *clean burning* Europa to keep your engine clean, free from excess carbon and gum. The perfectly refined spirit, Europa is so volatile it burns without trace. Keep your old car at its best; keep your new car new . . .

Refined to a new molecular formula Europa is volatile, powerful and clean burning.

... use clean burning
