How young is a blanket?

A blanket is as young as it feels and looks. No matter what its age, if it's still soft, fluffy and warm, it's a young blanket. So if you want your blankets—and everything else—to keep their life and freshness for years to come, then the answer is the ACME Cleanser-Wringer

It's the scientific combination of Pressure Distribution and Pressure Indication that does the trick! Acme pressure distribution operates over the whole length of the resilient rubber rollers

and wrings the thin as well as the thick parts of the wash, expelling embedded dirt along with the surplus water ... while Acme's new 3-point pressure indication takes the guesswork out of wringing. Everything from a bib to a blanket, gets exactly the right pressure suited to its weight and texture without any strain on delicate fibres. The whole wash—silks, cottons, linens, woollens—comes out fresher, cleaner, and with longer life ahead.
