LONDON PARIS NEW YORK GD

How will
you feed
your baby?

Three generations of mothers have put their confidence in Glaxo for their babies when breast-feeding has been impossible or only partially possible. And that trust has been justified, for Glaxo's formula of milk, standardised and fortified by extra Vitamin D and Iron, is the most satisfactory substitute for breast milk yet found.

2½ oz. of Glaxo makes one pint of Glaxo Milk Food.
This contains 800 i.u. of Vitamin D
and 5 parts per million of Iron.
