Alec Templeton, blind pianist and musical satirist, was born in Cardiff, South Wales, in 1910. He has developed into a great concert pianist and is a famous comedian. He can learn the piano part of a concerto by heart after listening to only 12 playings of a recording, and practising for a week. Alec Templeton will be heard in "Satirically Yours" from 3ZB at 3.45 this afternoon.

Popular Australian entertainers, Dick Bentley and Joy Nichols of "Take It from Here" fame, will be heard from 4ZB today at 4.30 p.m.

At 7 o'clock this evening, Station 2ZA will broadcast their final episode of "Biggles's Second Case," from the series "Air Adventures of Biggles."

What is Bandspread?

Stations on an ordinary short wave dial.

Stations on a Bandspread dial.

A Bandspread radio has the 'short-wave' magnified and then split up into a number of separate wavebands. Each of these wavebands (there are seven apart from Broadcast) on this fully bandspread set occupies the same space on the dial as the short wave on an ordinary set. Because the so-called 'short wave' is about 16 times bigger with bandspreading it's about 16 times easier to tune. Stations that were too close together and interfering with one another are easily separated. The pictures opposite tell the story. See how much easier it is to select a station on a bandspread dial (lower picture) than on an ordinary 'short wave' dial.

Short Wave Listening Made Easy

The perfect example of full bandspreading—the Pacific "Explorer." The beautiful walnut cabinet is in faultless taste, and the receiver itself will give performance you'll be proud of. The Pacific "Explorer"—value too good to miss!

Also Available: The Pacific "Dominion" Model 5W3 a de luxe 5-valve BROADCAST set in the cabinet shown.

Pacific "Explorer"

5 valves, 8 wavebands, Bandspread, Model 583
