COMMERCIAL.

Mr. HENRY DRIVER, on behalf of the New Zealand Loan and
Mercantile Agency Company, reports as follows for the week ending
September 8:—
Fat Cattle.—About 140 head were yarded at the weekly sale,
which, under ordinary circumstances, might be considered a moderate
supply. Several of the principal buyers had supplied themselves by
private purchases during the week; the demand was not so spirited
as might have been anticipated, and fully one-half were withdrawn.
Best bullocks realised from £14 to £18 each; medium ditto, from £10
to £14; best cows from £12 to £16; medium, from £8 to £10. We
quote the price of prime quality beef at 45s per 100lb; medium, 35s.
We yarded about 80 head, a portion of which had to be withdrawn,
the balance taken by trade at quotations. We have also placed 70
head privately.
Fat Sheep.—An excessive supply of 3,000 again came forward,
nearly all of which were good quality cross-breeds. The trade being
for the most part fairly supplied, it was necessary to reduce prices;
consequently about 2,000 were disposed of at prices equal to about 4d.
per lb. Best quality cross-breeds brought 17s to 19s 6d; medium,
from 11s to 16s. We sold 300 at the yards, and have placed 300
privately.
Fat Calves.—None came forward.
Store Cattle and Sheep.—We are still obliged to report very
little business in either description, and do not anticipate any large
transactions until the appearance of Spring grass and after shear-
ing begins.
Grain.—There is a better demand for wheat this week, in anti-
cipation of a rise in flour, good milling bringing readily 4s 6d per
bushel; choice Northern is wanted, and would find buyers at 4s 8d.
Barley is unaltered; for malting kinds, 5s 6d to 6s; inferior is very
heavy of sale, at 3s 9d to 4s 3d. Oats are dull this week, there
being no shipping demand; we quote feed at 2s 7d to 2s 8d;
milling, 2s 10d; to force sales, lower prices would have to be accepted.
Wool.—We are without any further advices as to how the Lon-
don wool sales progress. We are, however, in frequent receipt of in-
formation from the interior of the province of the fine healthy con-
dition of the flocks, owing to the unusually open winter bringing
a constant spring of grass, promising a superior quality as well as
a heavy-weighing fleece of wool, which will compensate any slight
depreciation in value.
Sheepskins.—We had a full attendance of buyers at our weekly
sale on Friday last. Owing to the reported decline in price of wool
at the London sales now now progressing, a corresponding reduction
in prices had to be submitted to of 4d to 6d per skin for cross-breeds,
and 2d on merinos. We sold green cross-breeds at 5s 4d to 6s each;
Leicesters, 6s 6d; merinos, 4s 4d to 4s 7d; dry cross-breeds, 4s 11d to
5s 4d; merinos, 3s 2d to 4s 2d.
Hides continue very dull, our local tanners being still out of the
market. In course of the month we anticipate new erections will be
in full work, and a better demand. We sold good medium hides at
20s; inferior, 13s to 16s 6d.
Tallow.—We offered none last week. To-morrow we shall offer
a few tons.

AN HISTORICAL REMNANT.—It must be a touching spectacle to
see the few remaining soldiers of the Grande Armee as they gather
about the tomb of Napoleon the First in the Invalides. Wednes-
day was the anniversary of the "Little Corporal's" birth, and Mass
was celebrated in the Chapelle Ardente. About four hundred of the
magnificent army with which Napoleon once terrified all Europe
are still living; but they are all so maimed or bedridden that only
forty could muster in the Invalides. They walked, or limped on
crutches round the tomb in solemn procession to offer their immor-
telles while they gazed with tearful eyes on the splendid sarcop-
hagus, and on the trophies of flags torn in battle from the hands
of soldiers of almost every nation.
That Iowa invention which is to effect "a perfect revolution in
the sawing of wood" has been explained. It is a circular saw,
