WEAK MEN, LISTEN!

DO you want to be strong? Do you want your energy and vigour renewed? Is your strength wasting away? Do you want the vim, snap, and fire of perfect health that should belong to every healthy man? Can you work alongside your fellow men and do a day's work with ease? If you lack courage; if you are despondent, and dull, and crawl along as if it were a misery to live—these are all symptoms of early decay and loss of vitality. You want new life and energy infused into you. Electricity will do this: it is the vital force which keeps us alive. When the system is run down through overtaxing the electrical power of the body, it wants replenishing. The bolder a man works when he is weak the greater the drain on his electrical energy, and he gets worse. It is only waste of time eating food when the functional organs of the body cannot derive any benefit from it. If your system wastes most of the sleeping energy in such food because the nervous electrical energy cannot create sufficient strength from it, the nervous system of the tissues is here at fault; it is too feeble in quality; it is insufficient in quantity.

DR. McLAUGHLIN'S ELECTRIC BELT

Will restore you. Our Electrical treatment contains in an elegant and concentrated form all the elements of an ideal treatment. It is a truly scientific method of surpassing merit; it is Nature's own remedy finally perfected by long years of experience in the treatment of disease. The force of electricity, by its local action, relieves congestion, strengthens the muscles, and promotes natural development by regulating the waste and repair of the system. It permeates the system and spreads its

vitalising essence through every nerve and tissue in the body. In its stimulative and tonic action it arouses the sluggish nerve cells from their torpor and fills them with magnetic force.

It gives perfect and permanent power to all the organs of the body. It makes the blood pure and rich, the complexion clear, and the eyes bright; the flesh firm, the muscles solid, and the nerves strong and steady. It clears up the clouded brain, brightens the intellect, dispels all despondency, and will prepare you anew for the duties and pleasures of life.

NERVOUS WEAKNESS.

To the Secretary, The Dr. McLaughlin Co.

WOODVILLE, November 1st, 1903.

Dear Sir,—I have worn your Belt one month. I am pleased to state that the Belt has worked satisfactorily, and I am much improved in health. That tired, languid feeling has gone, and the pains in my back have ceased.

I have followed your directions closely, and I think in a couple of months I shall be permanently cured.

I remain, faithfully yours,

C. F. HOBBS.

FREE!

To all, our beautiful Illustrated 64-page Book, explaining our method of treatment. Send for it. We will mail it, sealed, post free, to any address. Don't delay; your best days are slipping by.
