Chaff.—Prime oat straw is in good demand; inferior and medium quality is difficult to quit. We quote: Prime well-cut oat straw, from £3 5s to £3 10s per ton (sacks extra).

Potatoes.—Supplies still continue to come forward in small quantities, which keeps the market very firm. We quote: Prime Derwents, from £11 to £11 10s per ton.

Eggs.—To-day's demand is limited at 9d per dozen, buyers not feeling inclined to give above 8½d per dozen.

Butter.—Scarce. Dairy prints, 8d; prime milked, 8d to 9d; separator in half and one-pound pats, 9d to 10d per lb.

Poultry.—In strong request. Hens, 2s 6d to 3s 6d; roosters, 3s to 4s; ducks, 3s to 4s per pair; turkeys, hens, 5d to 6d; gobblers, 7½d to 8d (live weight).

Messrs. Stronach, Morris, and Co. report:—

Oats.—Supplies offering are small, all arriving being readily sold. Quotations:—Special seed lines, 2s to 2s 3d; good do, 1s 10d to 2s; prime milling, 1s 8½d to 1s 9d; good to best feed, 1s 7½d to 1s 8½d; medium and inferior, 1s 5½d to 1s 6½d per bushel.

Wheat.—Business is quiet in this cereal, and prices remain the same, viz: Seed lines, 3s 5d to 3s 6d; prime milling, 3s 1d to 3s 2d; good to medium, 2s 11d to 3s; best whole fowl wheat, 2s 10d to 2s 11d; broken and damaged, 2s 5d to 2s 8d.

Potatoes.—There is a good enquiry, and anything coming forward is readily placed. Best Derwents and up-to-dates bring from £10 to £11 per ton.

Chaff.—The market is fairly well supplied, but good bright lines are easily quoted at from £3 5s to £3 10s, and medium to good at from £2 15s to £3 per ton.

Messrs. Donald Reid and Co. (Limited) report:—

We held our weekly auction sale of grain and produce at our stores on Monday. Feed oats, fowl wheat, potatoes, and chaff met with good competition at prices fully equal to late quotations. Values ruled as under:—

Oats.—The quantity on offer is exceptionally small for this season of the year, and all consign-

ments coming forward are readily taken, either locally or for export. Seed lines have more attention, and prime milling sorts are also in good demand. We quote: Special seed lines, 2s to 2s 8d; prime milling, 1s 8½d to 1s 9d; good to best feed, 1s 7½d to 1s 8d; inferior to medium, 1s 5½d to 1s 7d per bushel (sacks extra).

Wheat.—Last week was quiet, with a slight slackening in inquiry. Sales of milling lines are confined chiefly to a few choice samples. There is practically no inferior wheat offering, and orders for fowl wheat are being supplied with lower grades of milling quality. We quote: Prime milling, 3s 1d to 3s 2d; good do, 3s; whole fowl wheat, 2s 10d to 2s 11d; broken and damaged, 2s 5d to 2s 9d per bushel (sacks extra).

Barley.—Local stocks are not heavy, but at this season malsters' requirements are small, and lines on offer move off slowly at late values. Milling and feed lines are inquired for, but at reduced prices. We quote: Choice malting, 3s 8d to 4s; prime do, 3s 3d to 3s 6d; medium to good, 2s 8d to 3s 2d; milling, 2s 4d to 2s 7d.

Potatoes.—Despite the arrival of fair quantities during the past week, values are still maintained, and all sorts in good condition are sure of satisfactory sale on arrival. We quote: Best-conditioned sorts, £10 15s to £11; medium to good, £10 to £10 10s per ton (sacks in).

Chaff.—There is some inquiry for shipment, but mostly at prices that do not tempt local holders. Locally there is good demand for prime to choice samples, but lower grades are not in favor. We quote: Choice lines, £3 7s 6d to £3 10s; prime oat straw, £3 2s 6d to £3 7s 6d; medium to good, £2 15s to £3; light and discolored, £2 5s to £2 10s per ton (bags extra).

Straw.—Oaten straw is scarce, and in fair demand at 35s; wheaten, 30s per ton (pressed).

Turnips.—We quote: Best swedes, 11s per ton (loose, ex truck).

Hay.—The market is fully supplied, and best quality moves off slowly at £2 15s to £3; medium, £2 5s to £2 10s per ton.

WOOL.

Messrs. Stronach, Morris, and Co. report:—

Rabbitskins.—We offered a large catalogue on Monday, competition being good, and prices up to those lately ruling. We obtained up to 19½d for winters (mixed bucks and does), 20½d for winter does, and 35½d for blacks.

Sheepskins.—We submitted a fairly large catalogue on Tuesday, there being a good attendance of buyers, and prices were well maintained. We obtained as high as 14s 6d for merinos, and obtained up to 8s 5d for fine cross-breeds, 8s 10d for half-breeds, and 8s 1d for cross-breeds. We are sure that vendors would be well satisfied with returns of any sheepskins forwarded to our care.

Hides.—We offered a catalogue of 283 at our sale on Thursday, bidding being very spirited, and prices showed a good advance all round, especially for medium weights, which in some cases advanced fully 1d per lb. Our top price for ox hides was 6½d, and for cow, 5½d.

Tallow and Fat.—Prices remain the same, and all coming forward is readily disposed of.
