DEFECTIVE SIGHT

Is caused by the Eye being too long, too short, or the front of the Eye being of uneven curvature. These defects cause headaches, neuralgia, pains in and about the eyes, and are a great strain on the nervous system. Very often other organs are blamed when the eyes are the real cause. Medicine in these cases is useless, but the eyes should be tested on scientific principles by one who has MADE A STUDY of this BUSINESS ONLY and is a THOROUGHLY QUALIFIED EYE SPECIALIST. Glasses prescribed after such an examination are the only sure relief.

BEWARE !

One of the London Medical Officers of Health warns the public of the danger of feeding children on "Condensed Skim Milk." This product is being offered for sale in New Zealand. It is milk from which the cream has been removed, and to get the value of one pint of cow's milk a baby would have to swallow 16 pints of this diluted "Skim" milk !

TO BE SAFE !

Be sure that you get "Highlander Condensed Milk," which is guaranteed absolutely and positively "Full Cream." "Highlander" is the milk of cows fed on the rich green grass of our own Southern New Zealand. This milk is sterilised, is free from impure germs, and it is a really reliable food for children. It has brought infants round to health when artificial foods had all failed.

"HIGHLANDER"

—the Gold-medal Brand, is richest in cream, and so is the best for the Cook, the Housewife, the Miner, and all who like "good value and high quality." See that you get "Highlander."

YOU CAN DEPEND UPON IT.
