DEFECTIVE SIGHT

Is caused by the Eye being too long, too short, or the front of the Eye being of uneven curvature. These defects cause headaches, neuralgia, pains in and about the eyes, and are a great strain on the nervous system. Very often other organs are blamed when the eyes are the real cause. Medicine in these cases is useless, but the eyes should be tested on scientific principles by one who has MADE A STUDY of this BUSINESS ONLY and is a THOROUGHLY QUALIFIED EYE SPECIALIST. Glasses prescribed after such an examination are the only sure relief.

BEWARE !

One of the London Medical Officers
of Health warns the public of the
danger of feeding children on
"Condensed SKIM Milk." This
product is being offered for sale in
New Zealand. It is milk from
which the cream has been re-
moved, and to get the value of one
pint of cow's milk a baby would
have to swallow 16 pints of this
diluted "Skim" milk !!

TO BE SAFE !

Be sure that you get "Highlander
Condensed Milk," which is guaran-
teed absolutely and positively "Full
Cream." "Highlander" is the milk
of cows fed on the rich green grass
of our own Southern New Zealand.
This milk is sterilised, is free from
impure germs, and it is a really re-
liable food for children. It has
brought infants round to health
when artificial foods had all failed.

"HIGHLANDER"

—the Gold-medal Brand, is richest
in cream, and so is the best for the
Cook, the Housewife, the Miner,
and all who like "good value and
high quality." See that you get
"Highlander."

YOU CAN DEPEND UPON IT.
