To Those Who Need New Teeth!

¶ If you wish to get the Strongest Plates made in New Zealand, you should call at my parlours.

¶ Ordinary Plates are of uneven thickness. They often fit imperfectly and are liable to break at any time.

¶ But I have a most ingenious machine for making Plates of the same thickness throughout and moulding them with all the roof-ridges of the mouth.

This is one of the most important advances in Plate-making and ensures your getting a denture guaranteed to fit with absolute exactness, to look natural, and to last for many years.

These Superior Sets cost from £3 3s each.

Painless Extractions Free when sets ordered.

You can consult me without any obligation.
