Building Bridges

Disfiguring in the extreme is a tooth-gap. Yet quite unnecessary. Let us build a bridge over the gap: let us fill it with new, pearly teeth.

Those sound teeth close by need not be extracted. No plate is necessary—just a bridge. That's all.

Through my expert bridgework beautiful teeth will be particularly fitted—teeth that will equal Nature's own in strength, shape and shade.

Teeth comfort will be yours for a long, long time, for my bridgework is guaranteed for ten years.

I will be pleased to give you free examination and advice. Consult me to-day.

Superior plates, fillings, crowns and painless extractions—all at moderate fees.
