Defective Teeth —Why?

It's certainly most hard to understand why people allow bad teeth to stay in their mouths. It's illogical - and inconsistent of all those who profess to live in "Commonsense Street."

Consider the ill-health that decayed or defective teeth cause! They harbour myriads of germs —agents of bad teeth in corrupting food, which in turn carries the germs throughout the system —and that means illness.

Yet how unnecessary. A little time spent under my treatment will remedy the trouble.

If the teeth are too far gone I will extract them painlessly. If it is at all possible to save them I will do it by means of fillings or crowns.

My bridgework and platemwork also reach a very high efficiency mark. My fees are moderate.

Consult me to-day about your tooth-needs. Examination and advice free.
