THE CATHOLIC FEDERATION

One could read the lengthy report supplied in our last week's issue of the proceedings at the first meeting of the Dominion Executive of the Catholic Federation of New Zealand without being impressed with the energy, enthusiasm, and very marked ability which the delegates brought to their work. The meeting was held, it must be admitted, under some drawbacks. So far no provision had been made for the payment of delegates' travelling expenses, which in this country amount to a considerable sum, and delegates from the south had—or thought they had—to face the further inconvenience of submitting to vaccination before they would be allowed to return from Wellington; and both of these circumstances militated somewhat against the attendance. The gathering was, nevertheless, thoroughly representative, and the zeal and acumen displayed by the delegates in facing and settling the many and at times difficult problems before them were worthy of all praise.
