HIGH STREET ... CHRISTCHURCH

TO MY PEOPLE

(Lead Kindly Light)

Doubtless you are aware England is now
in the throes of her free trade policy—
i.e., the open door. Prior to the war she
was the receptacle for our enemies' goods
and undesirables, thus allowing the latter
to creep into every crevice of the Empire,
to England's peril.

To remove past anomalies "Champion"
suggests reasonable protection and a closed
door to our enemies, which would enable
England to be a much larger manu-
facturer, with better working conditions
and wages for her workers, who have so
nobly responded to the Empire's call.
