"Hygel" Cellular Underwear

FOR MEN AND BOYS

The Ideal Summer Wear for Health and Comfort

"HYGEL" is a new make of Cellular, and its special shrinkage
process, before being cut into garments, prevents shrinkage in wear.

"HYGEL" is made of High-Grade Cotton, rendering it unusually
strong and very comfortable to wear.

"HYGEL" is of such weight that, while delightfully cool in hot
weather, it is heavy enough to protect against sudden changes of
temperature.

"HYGEL" washes and wears well, and is moderately priced for its
superior quality.

BALLANTYNES ARE THE SOLE AGENTS FOR CANTERBURY

Samples of "Hygel" supplied upon
application.

High Grade Garden Hose

Phone 3197

HERE'S YOUR OPPORTUNITY WHILE STOCKS LAST!

A very high grade hose suitable for spraying and special work. The hose that will
not kink. Made of high-grade rubber with heavy seamless braided inner lining, Sep-
arated by a seamless layer of pure rubber and an outside rubber covering of exceptional
quality, fluted pattern.

This hose is vulcanised in massive steel moulds under tremendous internal pressure
—the result is that the lining, the filling stocks and cover form one single continuous
mass of rubber, completely surrounding the cotton cords, making it impossible to separate
or be destroyed by constant service.

We import this hose direct from the manufacturers, and offer *Tablet* readers the
benefit of our buying. Any length only 8d per foot.
