Express Yourself in the Character of Your New Home

Although this complete and efficient establishment builds upwards of 50 homes a year, our organisation is still small enough to permit personal supervision in designing and building.

Thus your problem is skilfully handled by master craftsmen, who treat it as an individual responsibility.

It is not only our duty but our pleasure to help home builders express themselves through the character of their homes.

These, and a dozen other phases of the home-building problem are interestingly handled in our FREE Booklet. Fill up and post the coupon for your copy to-day.
