We offer a prize of £1 1 0 for the best design for a
Lodge and Entrance Gates to Public Institution.

Lodge House.—The house must contain the following accommodation, viz:—Living room (150), kitchen (120), bedroom (120), and two smaller bedrooms, scullery-washhouse, store, cupboards, etc., and bathroom, all on one floor. The plan must be symmetrical, the entrance facing the drive, and the design in severe Renaissance style with flat roof. Fenestration, proportion, and similarity in the three principal elevations (N., W., and S.) must be specially studied. There may be small loggia or portico at the entrance.

Gates.—The gate piers, 4 in number, must accord with the design of the lodge,—on two must be an escutcheon for the arms of the Institution, the crest may form the finals,—the other two must bear lamp standards.

The materials allowed are as follows:—Piers—Freestone with Granite base. Gates and Lamps—Wrot Iron. Lodge—Brick or terra-cotta walling, with freestone dressings and cornice, asphalt roof. One bay of iron railing with brick dwarf wall, stone curb and piers, must be shown.

The design must be dignified, and not too elaborate, carving only allowed in the finals, and mantling to escutcheon. It is to be assumed that a similar lodge can be built on the opposite side, as shown dotted on plan, to complete the symmetry of the scheme.

The plan is not to scale, and, except dimensions, is only suggestive, the exact location of lodge is at discretion.

Drawings required.—Plan of lodge and dissimilar elevations, one of which must show the gates, and section, to $\frac{1}{8}$ inch scale; details of gates and piers $\frac{3}{8}$ inch scale; and sketch perspective from within grounds showing lodge and gates.

Messrs. Atkins and Bacon of Wellington, have kindly set this subject.
