**MAKES
CEMENT
WATER-
PROOF**

PUDLO

A **BRITISH** invention for making cement waterproof. It is in the form of a powder, and thus ensures the safety of the work, owing to its stable nature. Eminent experts have scientifically proved the safety of "PUDLO" in its relation to cement. Details of tests will be sent free. In comparative tests with all leading waterproofing compounds it has been proved that "PUDLO" is the

WORLD'S BEST WATERPROOFER

It keeps out moisture as a sheet of window glass keeps out the weather. For waterproofing cellars, basements, reservoirs, swimming baths, concrete walls, dampcourses, concrete buildings, etc., "PUDLO" should always be used. It is inexpensive in use, and it becomes more damp-resistant with age. We have some interesting descriptive literature about "PUDLO" which every engineer, architect, builder and cement worker should send for. It will be sent free on request. N.Z. Master Agents:

PATERSON & ROBERTSON, 14 COMMERCE STREET AUCKLAND
