

Building Notes.**AUCKLAND.**

The erection of a six or seven story apartment dwelling house near the site of the old Admiralty House above Anzac Avenue will shortly be undertaken by a company that has been formed for the purpose. The building will be constructed of steel, iron, and concrete. It is intended to attach a kitchen to each suite, and to provide a restaurant. Electric lighting and hot water services will be installed. It is stated that about £30,000 will be expended on the site and buildings.

An appeal is being made by the Board of Management of the Manurewa Children's Home for funds to erect an isolation ward at the home. Plans for this addition were prepared two years ago, but the board was then unable to proceed with the work. The trustees of the home have consented to the raising of £2000 for building purposes, in addition to which the board will require to provide for equipment and furnishings.

The construction of an open-air schoolroom at the Remuera Preparatory School and kindergarten is anticipated. The need for such an institution was mentioned by Mr. G. W. Murray, president of the Auckland Kindergarten Association, at a children's entertainment, held in St. Mark's Hall last month.

At a sitting last month of the Anglican Synod, Archdeacon Innes-Jones stated that the trustees of St. John's College, Tamaki, Auckland, wished to make enlargements and improvements. He found that some of the buildings were in a state of collapse and the architect recommended rebuilding. This would cost at least £18,000.

A factory for the manufacture of dried milk is to be established at Hautapu, by the Cambridge Dairy Company. The building will front the main road and will have a floor space of 12,500 square feet.

CLASSIFIED ADVERTISING

Advertisements accepted under this heading cannot be displayed, but are set solid in 8 point type.

Rates: One penny per word per insertion. 10% reduction for 3 consecutive insertions, 15% for 6, and 20% for 12 insertions. Minimum charge 2/6 per insertion.

The purpose of this department is to put the reader in touch with advertisers who offer the latest needs for Home, Office or Factory—and to place prospective employers and employees in touch with one another.

Advertising

The classified columns offer the small advertiser an opportunity to place his name before our readers at an exceptionally low cost. Send in your advertisement to-day so that it can appear in our next issue.
