

"Poilite" Asbestos Roofing Tiles

are again available to meet the requirements of New Zealand buyers.

THE output of the "Poilite" Factories was commandeered for War purposes in 1915. Since that time more than 170,000,000 square feet of "Poilite" have been used for military purposes by the British Government.

It has been with regret that we have had to decline so many orders for "Poilite" Tiles during the past four years owing to inability to obtain supplies.

We feel sure that owners intending to build will be pleased to hear that we are now ready to quote for supply of "Poilite" Tiles. Enquiry should be sent to our office nearest to you.

"Poilite" Asbestos Cement Building Sheets are also obtainable now from:—
