

IT is immaterial whether you will build with a flat roof or a pitched one, or whether the building is to be a large city office or store, cottage or farm house.

There is one roofing material that is equally satisfactory on all sorts of buildings, and that is—

# **"Certain-teed"**

## **— ASPHALT ROLL ROOFING —**

We are prepared to contract for the laying of **"Certain-teed"** Roofing in any part of the Dominion, and to guarantee satisfactory results.

As there is no rubber in **"Certain-teed"** Roofing, it is unaffected by exposure, and is impervious to the effects of the most extreme climatic conditions.
