## CHRISTCHURCH.

Cabinet has decided to grant £15,000 for additional buildings for the Canterbury College Engineering School in accordance with plans agreed upon between the Superintendent of Education and Prof. Scott.

The progress to date of the City Council's housing scheme was set out recently in a report presented by the Housing Committee to the City Council. The report stated that the committee had decided to erect eight houses on the block of land in Huxley street, Sydenham, which would allow 41.3 feet frontage, with an area of 25 perches of land. Competitive designs were being invited from architects practising in the city, the first selected design to carry a premium of £50, and the second £25. When the designs were received, the committee would make a selection and submit them to the Council, together with a recommendation as to the first and second successful competitor. The report was adopted.
