

Patents of Interest to Builders.

Reinforced Concrete Building Construction. A patent, No. 42,901, has been taken out by S. A. Robertson, of 12 Fairfax Road, Epsom, Auckland, Constructional Engineer, by which parts of building made in accordance with this invention comprise one or more sheets of corrugated iron, sheets or strips of wire netting secured thereto on one or both sides, and concrete laid on one or both sides of the

corrugated sheet so as to embed the wire netting and be securely held by the netting to the sheet. In some cases rods are passed transversely through the corrugations. The concrete may be stone, concrete, or coke-breeze. The work may be finished off with neat cement, rough-cast, plaster, or otherwise.

Building Slab and Hollow Vessel.—A patent, No. 43,094, has been taken out by A. J. Rouch-Cuming, of London. Ac-

KELLY'S DIRECTORY

OF

Merchants, Manufacturers & Shippers

and Guide to the Export and
Import Trades of the World

The great object of this Directory is to bring the Buyers and Sellers of all Countries into direct communication.

The work, which is published annually, contains in one volume the names of the **Manufacturers, Merchants, Exporters and Importers** for all Countries, and the Publishers can with confidence state that this is the only work in English which serves as a complete and accurate guide to both the Import and Export Trade of the entire world.

All Trade Headings are given in English and French and in the commercial language of the country to which the information refers so that the Directory can be readily used by the people of any country.

Our Representative will call on all N.Z. business houses every year.
