### Patents of Interest to Builders.

*Concrete Building Construction.*—A patent, No. 41398, has been taken out by George Ogle, People's Palace, Wellington, according to which slabs are formed with bevelled ends and rebated longitudinal edges. The slabs have embedded therein horizontal rods provided with eyes at their ends. Recesses are formed in the inner sides of the slabs opposite said eyes, and holes are formed in the outer sides of the slabs directly opposite said eyes.

## KELLY'S DIRECTORY

OF

## Merchants, Manufacturers & Shippers

and Guide to the Export and  
Import Trades of the World

The great object of this Directory is to bring the Buyers and Sellers of all Countries into direct communication.

The work, which is published annually, contains in one volume the names of the **Manufacturers, Merchants, Exporters and Importers** for all Countries, and the Publishers can with confidence state that this is the only work in English which serves as a complete and accurate guide to both the Import and Export Trade of the entire world.

All Trade Headings are given in English and French and in the commercial language of the country to which the information refers so that the Directory can be readily used by the people of any country.

Our Representative will call on all N.Z. business houses every year.
