Detector Valve

The Real Economy Valves

You can positively reduce your "A" Battery consumption by up to 75 per cent. by the use of these valves.

Tone Quality

The Tone Quality of "CONDORS" is unexcelled by any other valve at any price.

Distance Getting

Users are finding that the range of their receivers is substantially increased by the use of "CONDORS."

Volume

"CONDORS" will actually give you greater volume at less battery consumption than other valves.

Durability

The "CONDOR" filament is of the true dull emitter type, which is noted for its long life and reliability. There is no filament which is superior to "CONDORS."
