

Aunt Ethel SAID IT WAS LIBEL

You have a 2-volt accumulator?—then these are the Marconi Valves you need:

Marconi D.E.H. 210—
for the HF stage
(Price 13/6).

Marconi D.E.L. 210—
for the detector
stage (also for general
purposes) 13/6.

Marconi D.E.P. 210—
for the power stage
13/6.

George is an announcer. At Brisbane, we believe. He's Aunt Ethel's favourite nephew. When she heard him on Cousin Dick's set one evening she said, first of all, that George had croup.

Then she said it was a scandal.

And after that she talked a lot about solicitors and libel actions and things.

For George, as you've probably gathered, was a victim of "valve distortion." When Aunt Ethel told him what he sounded like on Cousin Dick's set, he said that was the WORST of Dick, he would go experimenting, and that Marconi Valves ought to be made compulsory by law.....

Seriously, though, that is one outstanding thing about Marconi Valves. They don't "twist." Moreover, they're very economical on power and they last a tremendously long time. You see, they're MARCONI, which means that everything—filament, grid, plate, vacuum, EVERYTHING—is designed for the purpose of making a better VALVE.

MARCONI VALVES

—do everything that a valve should do
