The Wonder of "Equitone" Reception —an exclusive BRITON feature

Many people are left dissatisfied after hearing the ordinary radio. But what a wonderful difference when you hear the Briton—with its marvellous **EQUITONE** Reception, which gives you more music, better music. The notes of the upper and lower registers—that most radios reproduce faintly and distorted, if at all—are now heard clearly and in perfect balance in the Briton.

And Equitone Reception is just one feature of Briton Radio.

BRITON Super 8 All-Wave

A genuine all-wave model that brings in, not merely one or two world-distant stations, but **ALL** of them! The tremendous power of 8 valves gives you volume to spare. Silent visual tuning enables you to get the station you want, quickly and quietly. The distinctive cabinet has entirely modern and beautiful style. Yet this Briton costs no more than an ordinary broadcast set.
