

Radio Record

THE JOURNAL OF ENTERTAINMENT

OCT. 18, 1935.

(Registered as a Newspaper, G.P.O.)

Price 1d

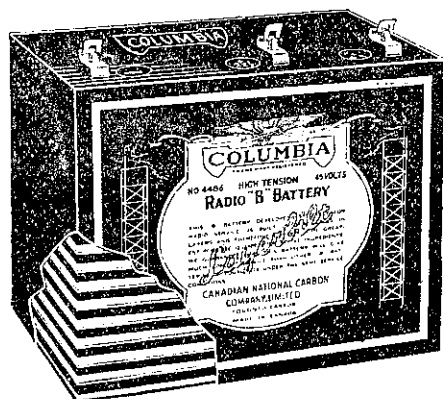

Insist on Columbia Layerbilt for your Radio—and you'll quickly realise why Dad was so pleased.

As the illustration shows, the Columbia Layerbilt Battery is built in layers so that all space is utilised—every cubic inch is crammed full of power. That's why Columbia Layerbilt gives you longer and better service.

*Said dad, "Well, it's easy to see
Since we changed to Columbia 'B'
Our wireless is fine,
The suggestion was mine
To use only Layerbilt 'B'."*
