

Address Wanted

Could any dxer supply me with the address of VY2BA, San Paulo, Brazil?—"Spud" (Horopito).

Identification Wanted

Shortwave station heard on 7610 k.c. at 6.8 p.m., N.Z. summertime. Reception was perfect, RS, QSA5. It closed down at 6.30 p.m. Waikiki was mentioned. Three numbers were presented—the first, a foxtrot, the next, a number with a Hawaiian orchestra, and the last, "Hawaiian Paradise." The announcer said that the station was KKA (or KKH), and that the transmission was for test purposes only.—"Antenna" (Te Awamutu).

VK2, heard on Sunday morning, October 6, between 2 and 2.32 a.m., when he closed down after requesting reports. The announcer stated he was operating on 1870k.c. This station came in with good volume.—DX164A (Morrinsville).

DX Club Meetings

AUCKLAND.

In Scott's Hall, Symonds Street at 8 p.m. on Wednesday, October 23.
A. G. CONCHIE (211A.),
Correspondence Secretary.

SOUTH CANTERBURY.

At the secretary's residence, 35 Bowker Street, Timara, at 8 p.m. on Wednesday, October 23.
D. N. ADAMS (1H.Q.),
Branch Secretary

HAWKE'S BAY.

At the premises of Mr. L. Beichen, next Annand's, Waipukurau at 7.30 p.m. on Wednesday, October 23. Subsequent meetings will be held on November 6 and 20 and December 11.
L. W. MATHIE (4H.Q.),
Branch Secretary.

MANAWATU.

At 12 Campbell Street, Palmerston North, at 8 p.m., on Thursday, October 17.

C. J. MORGAN (143W.),
Branch Secretary.

WANGANUI.

At 21 Lowther St., at 8 p.m. on Monday, October 21.
F. CARR (150W).
Branch Secretary.

NAPIER.

In the Clubroom on the premises of the Napier Radio Co., Dickens St., at 7.30 p.m., on the second and last Tuesdays of each month.

O. N. HALLETT (143H.E.),
Branch Secretary.

WHANGAREI.

Meetings of the above Branch will be held on the first and third Wednesday of each month, at 7.30 p.m. in Fulljames Salon. Meetings on the third Wednesday will be devoted solely to DX talks. Visitors are very welcome.

R. A. ROYCROFT (222A),
Branch Secretary.

DX CLUB News and Views

Stations Identified

Brunswick (Otago) and 186W.—Many thanks for your information. The Japanese station JOJE is definitely on 590 k.c. He is on until 5.30 a.m. most mornings and comes in at R6. When closing down he gives the call twice, then some Japanese, concluding by repeating the call twice.—"Digger" (Hamilton).

DX Topics

Four Months' Dxing.

I HAVE had my set—a 6-valve dual-wave a.c. model—four months now, and to date have received the following verifications:—Americans: KVOO, KNX, KGMB, KOMA, WLW. Mexicans: XENT. Australia: 2CH, 3HA, 2MO, 2GB, 3UZ, 3DB, 3KZ, 4QG, 2KO, 4BH, 3AK, 4BC, 7LA, 2HD, 2AY, 3BO 2FC, and 2BL. (The last two are daylight verifications). New Zealand: 42C, Cromwell. Reports are out to WOAI, KFI, KSL, KHJ, KOA, KGA, KPO, WBBM, KOMA, KFAC, KOL, WTBO, XEAW, XEMO, XEPN, XGOA, 3AR, 2UE, 2CA, 3SH, 3TR, 3GL, 3XY, 2SM, 2WL, and 5PI.

DX conditions have been fairly good, but QRM is troublesome. My aerial is 65ft. long, and 95ft. high; earth is attached to a 6 x 3ft. copper plate, buried 6ft. in fairly dry soil.—374A. (Motu-macho).

Ten VK's Verified.

RECEPTION conditions have been very favourable of late, particularly for VK's, and some good loggings have been made. Ten VK3 verifications came to hand for reports sent in the competition, from 3TM, 3GY, 3DH, 3AM, 3BH, 3LU, 3RG, 3DX, 3FL, 3BY; also 4LW, 4RJ, 7JW, 4MR, KDKA, and KFRC. Reports are out to VK'S 2ZO, 2ZF, 4GG, 4JN, 7CW, 4QL, 4JJ, XGOA. The new regional relay, 8GI, Sale, Gippsland, was heard testing on 830 k.c. at great volume on Monday night.—DX81S. (Invercargill).

WIRE Broadcasts Special for Club.

CONDITIONS have been rather poor for DX reception lately, so consequently only a few new loggings have been made. The new Australian B stations heard so far are 8XY, 4AK, 4IP, 4PM and 5RM. All of these have been written to.

Recent American loggings are: KOY, KLRA, KXYZ, WBNS, WHP, WIRE,

and WLB. WIRE was heard on a special DX programme for our club on October 2. This is a new call for WKBF. WBNS and WHP, both operating on the same frequency at the same time, were logged on September 18. WHP was giving election results, while WBNS was testing. WLB was logged on his frequency test on October 2, between 10.10 and 10.30 p.m. After 10.30 p.m., he began a DX programme.

VK loggings are: 2ZF (1260 k.c.), 4JN (1310 k.c.), and 7PA (1230 k.c.). 4JN was heard on his DX programme on September 30. The only verifications lately are WOR (after seven months), VK3LU (after one year), and VK4JJ.

I am now dxing with a new receiver—an a.c. four-valve T.R.F.—6M.C. (Pleasant Point).

New Australian "B's."

CONDITIONS have not been quite so good this week on account of heavy static. Europeans are very disappointing this spring, but the VK's are still coming in with good volume. The following new Australian stations have commenced transmission either on regular schedules or testing: 3GI (830 k.c.), 2KA (1160 k.c.), 29N (1440 k.c.), 5RM (850 k.c.), 7BU (1390 k.c.), 4PM (1360 k.c.), while 4BU, Bundaberg (1480 k.c.), 100 watts, will be on the air in December. 2BE, Bega, 100 watts, will be on in November. 4GY, Gympie, 1480 k.c., will have a power of 50 watts. 2GZ, 2LV, 4CA, 2AD, 49N, and 2NR will all be on the air before the end of the year. 7BU, Burnie, has been heard testing several times at good volume, and should be easy to log.—DX164A. (Morrinsville).

Shortwave DX Good.

I AM a beginner at dxing, and I find the loggings of the "old hands" very helpful, as most of them are given with the wavelengths.

I have been dxing now about three or four months, and my verifications total about 40. Most of them are shortwave cards, as in this locality the broadcast band is impossible for DX work. There is plenty of good sport on the shortwave bands, and there is always a good number of stations still to be logged.
