

FROM THE PROVINCES

Pleased With B Station Prospects

Director of Dunedin's 4ZM Looks Forward to a "Fair Deal and a Chance to Make a Living"—Perambulating Music and a City By-Law—Dunedin Clings to Scots Visitors.

"I'm more than pleased with the way things are shaping," said Mr. R. Walls, head of the Dunedin radio station, 4ZM, to a "Radio Record" representative the other day, when commenting on the B station position in New Zealand. "All the B stations are asking—all they have asked for right from the outset, in fact—is a fair deal and a chance to make a living. I've had several talks with members of Parliament, and I don't think it will be long now before the whole question of New Zealand's broadcasting policy is before the House. And I'm feeling most sanguine about the outcome of the discussion. The B stations have nothing to fear from the present Government."

THERE is a by-law in Auckland which provides that musical instruments may not be played in the streets of the city without a license from the city council. Although there have been no prosecutions, the point has been raised as to whether auto radios being played at some volume while motor-cars are parked on, say, a taxi rank, can be dealt with under this by-law. In view of the almost universal use of radio, it would appear to be time that the by-law was amended. Possibly the "city fathers" may take the view that a wireless set, even one fitted to a motor-car, is not a musical instrument, although few owners of a modern receiver would agree with this. There are now few taxis in Auckland not fitted with radios, and on days when races are being held it is a common sight to see small crowds surrounding the vehicles to hear the latest from the racecourse.

Scots Return

EVER since the Dunedin Scots, and a good many other members of the community, too, heard Sydney MacEwan and Duncan Morison from the local studio, they have been hoping (almost praying, one might add) that the Scottish entertainers would be sent back to the Edinburgh of the south by a discerning Broadcasting Board. Now it is announced that their wish is to be granted, as these two Scotsmen are to come back for a further series of broadcast recitals. When they were first in Dunedin they were frequently requested to sing or play many Scottish airs, but unfortunately they were unable to accede to all demands, and left a public that was hankering for more, which may now be given them.

Musical London

MISS GRACE WILKINSON, whose tour of New Zealand under engagement to the New Zealand Broadcasting Board opens on June 9, is at

present in her home town after seven years abroad. Christchurch was glad to welcome back this famous contralto. Miss Wilkinson cannot speak too highly of the wonderful way in which she was received in London. Dame Clara Butt, whom Miss Wilkinson acknowledges as responsible for her whole career, met her on her arrival, and introduced her to the inner circle of musical London. Miss Wilkinson regards the musical outlook in that city as very bright indeed, the theatres being packed with most enthusiastic audiences. The Covent Garden Opera Company is doing wonderfully well under the new management. Opera is not the only side of music, according to Miss Wilkinson, which is claiming great attention, the

enthusiasm which is being displayed in music generally at Home is certainly giving great encouragement to the different artists.

"The One Bright Spot"

LIGHT music seems to be unfailingly popular with the men at a Public Works camp, on the Milford Sound road, who have reported to the low-power station 4ZC that their programmes are enjoyed better than the "nationals." This B station is located at Cromwell, and is therefore in a good position for reception on the Milford Sound work, yet recently the station received a report from a DXer as far distant as Whangarei, notifying that the "programme of music was

Acid In Your Blood Ruins Health and Vigour Kidneys Usually to Blame

There is nothing that can so quickly undermine your health, strength and energy as an excess of Acid in your Blood. Every time you move your hand, take a step, or use even the slightest amount of energy, cells are broken down in the body and create Acids. This process goes on even when you are asleep.

Fortunately, nature has provided an automatic method of getting rid of these excess Acids. To get rid of these Acids nature provides that your blood circulates 200 times an hour through 9 million tiny delicate tubes, or filters, in your Kidneys. It is the function of the Kidneys to filter out these health-destroying Acids, and to purify the blood so that it can take energy and vitality to every part of your body. But if your Kidneys slow down and do not function properly, and remove approximately 3 pints of Acids, Poisons, and liquids from your blood every 24 hours, then there is a gradual accumulation of these Acids and Wastes, and slowly but surely your system becomes poisoned, making you feel old before your time, run-down, and worn-out.

Causes Many Diseases

If Kidney troubles cause you to suffer from Acidity, Getting Up Nights, Nervousness, Leg Pains, Dizziness, Frequent Headaches, Rheumatism, Swollen Ankles, Circles Under Eyes, Backache, Loss of Vitality, or Burning, Itching and Smarting, don't waste time worrying and waiting. The natural thing to do is to help your Kidneys with the doctor's special Kidney prescription called Cystex (pronounced Siss-Text). Cystex works directly on the Kidneys and Bladder, and helps the Kidneys in their function of washing impurities and Acids from the system and in maintaining the purity of the blood. Don't try to overcome Acidity in your blood by taking medicines to offset the Acidity. The only way you can really get rid of the Acidity is by helping your Kidneys to function properly and thus remove the Acid from your system. The Acid is bound to stay there unless the Kidneys function properly.

Dr. G. B. Knight

Chemists and doctors in over 35 different countries throughout the world recommend Cystex for its purity and prompt action as a Kidney medicine. For instance, Dr. Geo. B. Knight, Physician of Camden, N.J., recently wrote: "Cystex is an excellent prescription to help overcome Kidney troubles. It is assimilated by the system in short order and starts its beneficial action almost immediately, yet Cystex contains no harmful or injurious ingredients." Dr. C. Z. Rendelle, another widely known physician and Medical Examiner of San Francisco, recently said: "Since the Kidneys purify the blood, the poisons collect in these organs and must be promptly flushed from the system, otherwise they re-enter the blood stream and create a toxic condition. I can truthfully recommend the use of Cystex."

Guaranteed To Cure

Because of its world-wide and unusual success, Cystex is offered under a written guarantee to do the work to your complete satisfaction in 8 days or money back on return of empty package. Under this written guarantee you can put Cystex to the test and see exactly what it can do in your particular case. You must feel younger, stronger and better than you have in a long time—you must feel that Cystex has done the work thoroughly and completely, or you merely return the empty package and it costs you nothing. You are the sole judge of your own satisfaction. With Cystex there is no long waiting for results, because it is scientifically prepared to act directly on the Kidneys. For that reason most people report a remarkable improvement within the first 48 hours, and complete satisfaction within 8 days. Cystex costs very little at chemists, and as the money back guarantee protects you completely, you should not take chances with cheap, inferior, or irritating drugs or delay. Ask your chemist for Cystex (pronounced Siss-Text) to-day. The Knox Co., Box 977, Wellington.
