# LUNG TROUBLE

**Membrosus . . . A Dry Inhalation Treatment Which Is Achieving Marvellous Results.**

There is an ever-growing number of very grateful people, many of whom have endured years of suffering from Lung and Chest complaints in various stages and who regularly report **WONDERFUL RELIEF, STEADY PROGRESS, and ULTIMATE FREEDOM** from their complaints. Here is a typical report from one of the many cases—

"The lungs and bowel were affected, and he also had bronchitis."

"I was examined by the Bureau doctor, who said the disease was very quiet. I'm also happy to report further progress with the fistula. There

is a steady reduction in the size, and it is considerable less painful. It seems hardly believable, comparing it with what it was like 12 months ago. 'Good results settle all arguments.'

"The weather has been very trying—perishingly cold, nevertheless, I have not been troubled with the bronchitis like I was last year. I feel positive that using Membrosus has saved my life. I could not possibly have gone on as I was with the spitting of blood, the cough, the increasing size and pain of the fistula, well—there was but one outlook—I do, indeed, feel grateful."

The only Satisfactory and lasting treatment for

## CATARRH HAY FEVER ANTRIM Trouble

RECOVERY WITHOUT OPERATION

Many reports that reach us daily prove that Membrosus is the one treatment which does give **PERMANENT** results . . . and paves the way for return to normal health.

Because the dry fumes of Membrosus enter the blood stream and actually clear away toxins, and germs which cause these troubles, this **INHALATION TREATMENT** is able to definitely conquer such complaints **WITHOUT OPERATION**.

If you have Head Noises . . . Chronic Sneezing Fits . . . Running Eyes and Nose . . . If your Hearing and Sense of Smell are affected . . . if you are troubled with disgusting Hawking and Spitting . . . these things can all be changed. You can en-

joy life free from such embarrassing conditions. You can wake in the morning with nostrils and throat quite clear . . . go through the day without these insidious complaints undermining and affecting your health.

"I am very pleased to be able to say that I am feeling the benefit of the treatment," writes a sufferer from catarrh. "The catarrh seems to be gradually clearing up. During the last couple of weeks there has been a most decided improvement. The cough and mucus is getting less each day. It really seems too good to be true, and I am trusting that it will be permanent."

## ASTHMA and BRONCHITIS

Membrosus Dry Inhalation Treatment has proved invaluable for these complaints. Sufferers report that they can now breathe freely at all times without shortness of breath, walk up steep hills and play games without getting tired . . . lie down and sleep at night without fear of attacks . . . bring the mucus easily away . . . stop the wheezing. Attacks become less frequent and recovery gradually but surely complete.

"Just a line to let you know that I feel real good lately. I went and saw the doctor, and he informed me that the asthma had cleared up, and he also said there was no sign of the bronchitis, either. I wish to thank for your wonderful treatment."

With Membrosus many chronic cases of up to 40 years' standing report complete recovery without recurrence.
