## THE NEW IRON VALVE

.. for perfect all wave,  
all world reception

# STEWART WARNER

## 1936 FERRODYNE RADIO

—Another page turns in the book of Radio history . . .

With the new Stewart-Warner, the field of Radio entertainment widens beyond all preconceived limits.

The latest Stewart-Warner Ferrodyne models—built from the base up for an entire Iron Valve equipment, embody the most revolutionary radio improvements since the Crystal Age. Stewart-Warner now heralds the Iron Age of Radio with a set that gives the double advantage of an exclusive new circuit combined with the remarkable performance of these new, unbreakable Iron Valves.

Your dealer is now demonstrating the improved performance of Ferrodyne Radio . . . Ready immediately—No waiting!
