

Congratulations AIRZONE

on producing the two most outstanding Battery Sets ever built

Model 750 7-valve
Battery Dual Wave
Superheterodyne.

In its delightful new-trend cabinet this advanced Radio answers the insistent demand for a battery set modern, powerful, and economical to operate. Outstanding features include New Horizontal Dial with Duplex edge-illuminated Glass Scale; Full Automatic Volume Control; Two Speed Tuning; Permanent Dynamic Speaker; Combined Volume Control and Double Pole Battery Switch; Low Battery Consumption.

This is high praise indeed, from a distributor who has been handling many different brands of Radios over a period of years. We feel it is a real vindication of the designing, the consideration, care and expert workmanship we have put into the manufacture of these two outstanding battery sets. We'd like you who are in non-reticulated areas to hear these sets; to compare them critically for we are sure that you will find in them utterly new standards of battery set performance. See your nearest Airzone dealer or write for full particulars to—

Model 654 6-valve
Battery Receiver.

A really splendid model which affords farmers and others in out-of-the-way places a new conception of economical and satisfying battery set performance. Special features include:— New Horizontal Dial; Full Automatic Volume Control; Ample Selectivity and Sensitivity; Permanent Magnet Dynamic Speaker; Low Battery Consumption.
