

# The Last Word in RADIO ACHIEVEMENT

*—and for the first time in  
Radio History*

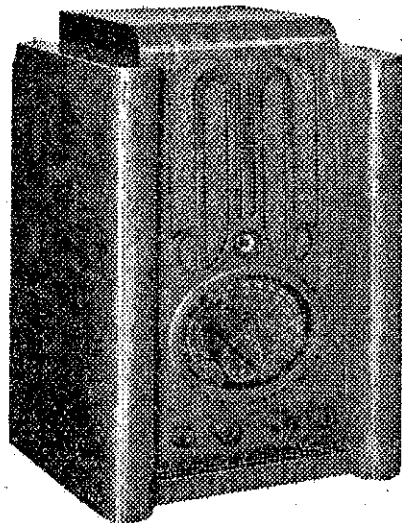

## PERFECTLY BALANCED TONE

For the first time in RADIO History, Perfectly-Balanced Tone is now possible and you need only hear the new Gulbransen to realise that it is the last word in Radio Achievement.

Every model reproduces programmes with such striking realism, and with such glorious tone that every artist is re-created in your own home.

Above is illustrated the new Console Model.

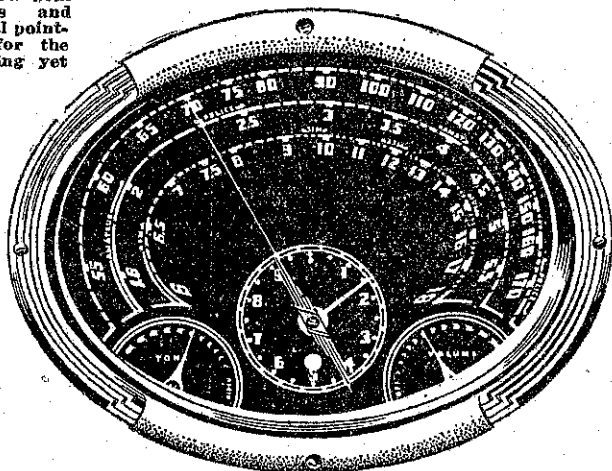

Above is illustrated the new Mantel Model.

Definitely, and without exception, the new Gulbransen is the finest and most advanced radio ever brought to New Zealand.

### SPECIAL FEATURE.

The new Aero-vision Dial illustrated below with three wave-bands and specially-g geared dial pointer which makes for the most accurate tuning yet achieved.

Here are a few features that make GULBRANSEN the Leader:—

- Ken-Rad Dependable Long Life Metal Valves.
- Full Floating Electro-Dynamic Speaker.
- Fully rubber cushioned chassis, cadmium plated.
- Micro-Tuning Dial for Short-Wave reception.
- Full Aero-vision Dial.
- High Fidelity control.
- Cathode ray tuning, with the "magic eye."
- And gracefully-designed polished Walnut veneer cabinets.

Arrange for a demonstration from your nearest dealer and see for yourself why GULBRANSEN is the best buy to-day.

Dealers all over N.Z.
