RHEUMATISM

PAINS IN MUSCLES AND JOINTS SHOW FAULTY KIDNEY ACTION

The root cause of rheumatism is to be found in the failure of the kidneys to perform their duty. The kidneys, which should take out every trace of poison or waste matter from the system, are allowing excess uric acid to remain and settle all over the body.

This uric acid quickly forms sharp, needle-pointed crystals which settle in joints, causing swelling, stiffness and the agonising pain of rheumatism. The correct treatment must restore the kidneys to their healthy, natural state, so that uric acid is filtered out. That is why De Witt's Kidney and Bladder Pills can effect permanent relief in the most obstinate cases of rheumatism.

De Witt's Pills act directly on the kidneys and restore them to their natural, effective action as the filters of the waste of the system. You will have visible proof of this direct action within 24 hours of taking De Witt's Pills. With the lessening of uric acid, the root cause of rheumatism disappears. The genuine De Witt's Kidney and Bladder Pills are obtainable from all chemists and storekeepers, price 3/6 and 6/6. Get a supply to-day.
