

SENSATIONAL NEWS!

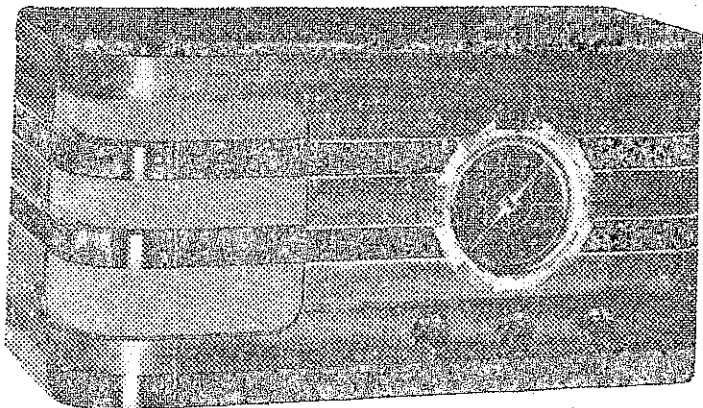

STELLA introduces even further

"PROUDLY MADE—PROUDLY OWNED"

IMPROVED 1938 MODELS!

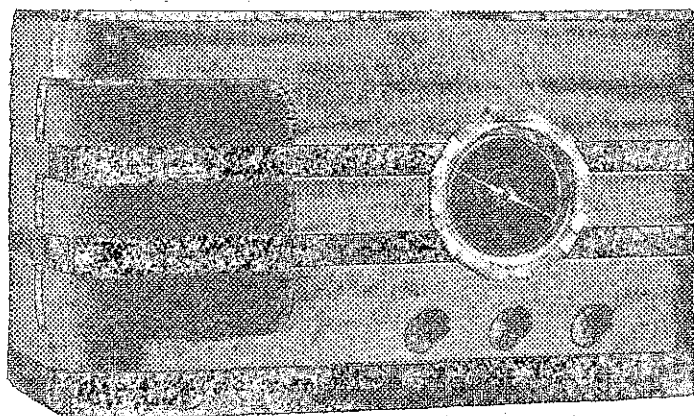

STELLA have again eclipsed all existing standards! STELLA offer in these three new sets the last word in radio progress. You can now afford the best! No matter which STELLA you choose, you receive the most your money can buy in each class of set—plus COMPLETE RELIABILITY.

STELLA is equipped with non-fading scales, "Litz" wound coils, iron-cored I.F. transformers, first-grade components, full-sized speakers on all models. Magnificent cabinets. Call and inspect.

STELLA "SIRIUS S2"

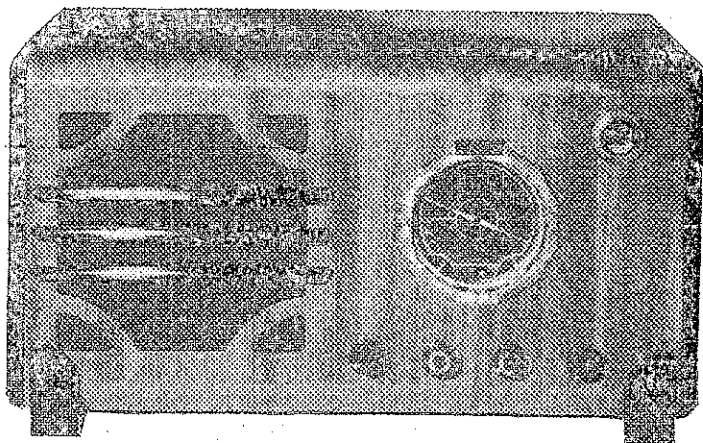

STELLA "Sirius S2" (above) is a 5-valve broadcast model. Operates on A.C. Gives a new pleasure of fidelity reception—a rich, true purity of tone. Strongly built of quality components, assuring you of trouble-free performance for many years. STELLA "Sirius S5" (on left). 4-v. broadcast vibrator operated model with dual purpose I.F.6 valve, giving 5-valve performance. Saves battery drain.

STELLA "Sirius S5"

STELLA "Astra S3" (on right). 6-valve broadcast A.C. Latest dual wave, plus magic eye and many advanced features for powerful long-distance reception. Undoubtedly offers spectacular performance.

See your nearest STELLA dealer. He'll be proud to demonstrate any model in your own home. Call to-day and
