

YOU CAN BECOME A PILOT or GROUND ENGINEER NOW!

FLYING MADE EASIER AND INEXPENSIVE

Free Scholarships available to limited number

FOLLOW IN LIEUT. CLOUSTON and JEAN BATTEN'S TRAIL

Here's a wonderful opportunity for every man or woman to become a pilot or ground engineer at a remarkably low cost. The Aircraft Club, Wellington is sponsoring tuition in an aeronautical course whereby every man or woman who wishes to become an aviator, either for commercial or pleasure reasons, can do so at an astonishingly low price. Aviation is the coming profession for thousands of people throughout the world, and New Zealand in particular has a tremendous field open for those with even a smattering of aircraftsmanship. Aviation, to the ambitious man or woman, offers unlimited opportunities—quicker promotion—bigger money and security—which no other profession or trade can give for years yet.

Why struggle along on a mere pittance when aviation offers you a real opportunity to carve out a brilliant career for yourself. Here's the way to independence, fame and freedom in a profession in which work is a pleasure.

AVIATION TAUGHT QUICKLY IN SPARE TIME.

There is no need to give up your present job to learn aviation. We will give you the training. The demand for skilled men is unlimited, and the man with even a little aviation training behind him gets the job in preference to the man with nothing. We don't care whether you are brilliant, dull, or just ordinary, our course will teach you about aviation without any arduous training—and quickly, too! The course is simple, easy to follow, and gives you all the inside "dope" on aviation, covering ground engineering, piloting, etc. Remember, this course is sponsored by the Wellington Air League, composed of well known men who want to give youth it's chance. This is your big opportunity—seize it now and fill in the coupon for further details.

NO PREVIOUS EXPERIENCE NEEDED.

You don't have to know anything about 'planes—all you need is genuine interest—the will to make aviation your career or your hobby—and our course will do the rest—Show the world what you are made of—choose aviation for your future job, and experience the power—the prosperity—and the glory that goes with

it. You can follow in Lieutenant Clouston's and Jean Batten's trail. Records are only made to be broken again. Somebody must break them—why not you? Remember that Lieutenant Clouston and Jean Batten had very limited opportunities to gain flying experience in the first place—now look where they are—headliners in every country in the world. New Zealanders are blazing the trail in new and bigger records—other New Zealanders are needed to continue on the good work. Here is your opportunity to win fame and fortune. Get into aviation now through the Aircraft Club.

HERE'S OUR PLAN TO TEACH YOU AVIATION.

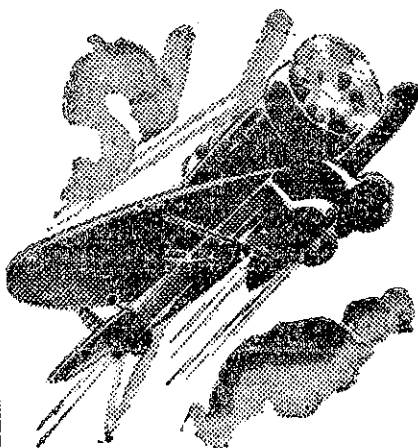

The Aircraft Club has been formed in Wellington by the Wellington Air League with the sole object of enabling men, women, boys and girls to learn all about aviation for as low a sum as 2/- weekly.

The Trustees of the fund of the Aircraft Club are T. C. A. Hislop, Esq., President of the Wellington Aero Club, John Kirkealdie, Esq., Wellington, and Claud Batten, Esq., Wellington, Chairman of the Wellington Air League, who will hold in trust the money for free flying scholarships for members of the Aircraft Club.

This is the first time in New Zealand that anything so outstanding has been attempted—and this plan is made possible only by the support given it by well known men who realise the difficulties which the youth of to-day is up against in learning aviation

YOU HAVE EVERYTHING TO WIN—THERE IS NO RISK!

Aviation is the coming profession of the world, you have only to look at the headlines in the paper each day, and you will quickly realise the wonderful opportunities available. Just think for a moment of these golden opportunities. England requires at least 150 New Zealand men for the Royal Air Force next year; Australia has dozens of opportunities, and in New Zealand pilots and ground engineers are so scarce that unless the position eases during the next few years, the Dominion will have to look for experienced men overseas. Here is your opportunity to get in on this new profession and become one of the big figures and wage earners in the Dominion. And remember, too, that aviation is an international profession, and that the knowledge that you gain in New Zealand carries you throughout the world. Decide now to get your experience in aviation so that when next year's draft of men go home to England or are called up for the New Zealand Air Force, YOU will be amongst the chosen few. Even a small amount of aviation training improves your chances a hundredfold—don't hesitate a moment longer—a good pilot, or engineer, makes an instant decision, so post the coupon away immediately. It means the beginning of a glorious career and a profession where work is really a pleasure. NOW—JUMP TO IT AND SEND THE COUPON RIGHT AWAY TO PAT DONOGHUE, Secretary, Aircraft Club, Box 95, Te Aro, Wellington.

PAT DONOGHUE, Secretary,
Dept. RR., AIRCRAFT CLUB,
Box 95, Te Aro, WELLINGTON.

Please send me full details by return mail of the Aircraft Club's new plan of learning Aviation. I understand I am not obligated in any way. 1d postage enclosed.
